Neutrons and protons are broken down to form the entire universe and gave a wonderful understanding of the laws that apply to atoms, atoms, and the universe from which neutrons and protons are made up of.

He enthralled the students by explaining how with the generation of free neutrons its life span is 14 minutes and with the generation of free protons its life span is 39 hundred years over 10 which is the estimated age of the universe estimated by scientists. And consequently, showed that neutron to proton conversion is possible but proton to neutron conversion is not possible due to conservation laws. Given the information that

students have many research opportunities in the subject of particle physics and can make a career in it.

DEPARTMENT OF PHYSICAL EDUCATION AND SPORTS

ANNUAL SPORTS REPORT 2019-20

Nowadays, students are so busy compiling their projects and assessment, so they need time to restrain and boost their power. Since there is a fuss in the academics and it is hard for each student to excel in studies so, it is an advantage to be a part of any extracurricular activity. It will not only help students to reduce your stress but can also help them to develop themselves as a successful athlete or players. Therefore, it is necessary to have sports facilities in college. Our college has privilege to have good infrastructure for sports.

Physical Education is an integral part of the total education and system. It helps in the attainment of the ultimate aim of education i.e. the achievement of holistic development. Games and Sports play a vital role in the student's life. A student should study hard to be successful in competitive examinations. But, he should also play games and sports to enjoy the health and vigor of life. Along with bookish learning, a student should spend his time on games and sports also. Either study or work alone makes us exhaust. We remain no longer efficient to do any work. Sports remove our mental exhaustion. Education without sports is incomplete.

The Department of Physical Education and Sports marks itself as one amongst the most efficacious Department of Shree R.R Lalan College. It strives to excel at all levels and bring laurels to the college. With the help of college faculty we are continuously improving in sports field. Considering the concept of "SPORTS FOR ALL" throughout the entire session we organized Inter-department tournaments for students as well as some sports activities for staff (teaching and non-teaching). It is one of the largest co-curricular activity programs that offer an extensive opportunity to all the students and staff. This venture shall enable the students and staff to have fun, learn new sports, enhance social interaction and tests one's physical capability. These competition also offer a break from the daily routine tasks and recreate or re-energetic them.
